---

## **COMUNICACION FROM BENITACHELL TOWN HALL**

In relation to the statements made by Mr Josep Femenia of this Town Hall, we release the following communication from the Mayor:

“Everything said by this person is false and without substance, as he said that payment for the works of Plan E, Camino Abiars, was made to a local contractor, “Obras y Excavaciones Bolfer Llobell SL”, but that the works were not finished, thus confusing the entire population and other Town Halls in the area.

The accusations by Mr Josep Femenia have caused irreparable damage to the Town Hall and we are reserving the right to take legal action against him.

All documentation relating to the said works, the project, it’s amendments and certificates as submitted to the authorities responsible, are in the Town Hall and the inhabitants of Benitachell may visit us, see them for themselves and undertake any review, in order to see that Mr Josep Femenia has hidden the truth and confused people with lies and rumours touted to the press and radio.”

**THE MAYOR**
